Iqama Transferable

PROFESSIONAL SUMMARY

Full Stack Developer with 3+ years of experience building scalable and responsive web applications using React.js, Node.js, JavaScript, and TypeScript. Specialized in developing modern frontend architectures with efficient state management and seamless REST API integration. Experienced in designing and optimizing backend services with SQL, along with implementing secure authentication and performance-driven solutions. Proficient in building reusable components, improving application performance, and handling large datasets. Familiar with Azure, Docker, and CI/CD practices, with a strong focus on clean code, maintainability, and delivering production-ready applications.

EDUCATION

M.Tech in Computer Science. 2021-2022

RV College of Engineering, Bangalore, India (Visvesvaraya Technological University)

CGPA: 7.66

Bachelor of Engineering (B.E.) in Computer Science. 2015-2019

PDA College of Engineering, Gulbarga, India (Visvesvaraya Technological University)

CGPA: 6.62.

EXPERIENCE

IWS (Industrial Well Solution)

<https://iws.com.sa> | <https://iws-portal.com>

Software Developer | *Sept 2025 – Present*

Tech Stack: JavaScript, React.js, Node.js, Express.js, SQL, MUI

- Developed a scalable full-stack IWS Portal using React.js and Node.js + Express.js.
 - Designed and implemented RESTful APIs for users, Equipment Maintenance, Journey Management System, HSE Safety modules - Observation , Stop Card , Incident Report Management System.
 - Integrated MS SQL/MySQL with optimized queries for large-scale data handling.
 - Built responsive UI using React.js and MUI with reusable component architecture.
 - Implemented RBAC-based authentication and authorization.
 - Developed Excel import/export functionality using `xlsx`.
 - Built an e-mail notification system using NodeMailer.
 - Applied real-time validation and strong error handling across the application.
 - Improved performance through API optimization and efficient state management.
 - Ensured security with JWT authentication and protected routes.
 - Managed deployment and environment configurations.
-

PROFESSIONAL & PERSONAL DEVELOPMENT

Frontend & Full-Stack Development | Sept 2024 – Oct 2025

- Focused on advancing frontend and full-stack development skills using **React.js, TypeScript, Javascript, and modern UI libraries**.
- Built and deployed real-world projects to strengthen component-based architecture and performance optimization.
- Gained hands-on experience with **animations, responsive design, and scalable UI systems**.
- Improved understanding of **API integration, form handling, and production-ready frontend practices**.

Projects:

Smile With Me E-Commerce Web App

<https://with-thesmile.com/>, <https://crm.with-thesmile.com/>

Tech Stack: React.js, Node.js, Express.js, SQL, MUI

- Developed a full-stack e-commerce application with scalable architecture.
- Building responsive UI using React.js with reusable components.
- Designing RESTful APIs for products, Application, Services, and Promotion Reels.
- Implemented authentication and authorization using JWT for CRM.
- Integrated secure payment gateway (Stripe).
- Focusing on performance optimization and mobile responsiveness.

Projea Al Saudi Company (Construction & Management)

<https://projeasa.com>

- Developed a responsive corporate website showcasing services and projects.
- Implemented smooth animations using **Framer Motion** for enhanced user experience.
- Built reusable and modular components for scalability.
- Integrated secure email functionality for Career and Contact forms.

PureMinds (Media Agency)

<https://pureminds.pharmavac25.com/>

- Built a modern, responsive frontend UI using **React.js, TypeScript, Motion Frame**.
- Implemented reusable component architecture for maintainability.
- Added interactive UI elements and animations to improve engagement.

Software Engineer | iNube Software Solutions Pvt. Ltd

Sep 2022 – June 2024

- Developed and maintained browser-based web applications using **React.js, .NET, and SQL**, significantly improving user engagement and responsiveness.
- Designed and optimized **RESTful APIs** using **Node.js** for efficient data retrieval and seamless front-end integration.
- Enhanced performance by optimizing **API calls** and **SQL queries**, leading to faster load times and better scalability.
- Implemented **token-based user authentication (JWT)** and authorization flows from the frontend, ensuring secure user access.

- Integrated **React.js** frontend with Node.js backend services, improving overall application responsiveness and scalability.
- Utilized **React Hooks** like useState and useEffect, useMemo along with **Context API**, to manage local and global state effectively and eliminate prop drilling.
- Worked with **JSON-based API communication**, enabling standardized, lightweight data exchange between frontend and backend.
- Enabled **real-time data updates** through two-way interaction between client and server for dynamic UI behaviour.
- Managed and processed **large CSV files** with efficient parsing and validation logic, enhancing data handling capabilities.
- Configured **Webpack** and **Babel** to bundle and transpile modern JavaScript (ES6+) for browser compatibility and performance.
- Used **Git** for version control and **GitHub** for source code management, ensuring smooth collaboration and code integrity across development cycles.
- Worked extensively with **Visual Studio Code (VS Code)**, leveraging extensions like ESLint, Prettier, and integrated Git to enhance productivity and maintain clean code.
- Used **Azure Boards** for task management, sprint planning, and backlog tracking to ensure smooth agile project workflows.

SKILLS

Technical Skills:

- React JS, Node JS, JavaScript, TypeScript, SQL, Asp .NET (basic) , Python (basic)
- State management using useState, useEffect, useMemo and Context API
- Webpack, Babel, Vite, RESTful APIs, JSON
- Microsoft Azure - CI/CD basics, Docker , AWS (basic), Google Cloud Platform(Basic)

Soft Skills:

- Problem Solving, Collaboration, Critical Thinking, Result-Oriented Delivery, Keen Learner

CERTIFICATIONS

- [Docker Essentials: A Developer Introduction- Cognitive Class By IBM](#)
- DataScience For Engineers - NPTEL
- Enhancing Soft Skills and Personality - NPTEL
